Entrust Your Training to experts

Steve P. MOSS

Acting CEO, MEA Operations

Contact: contact@noiaa.com

Cher intervenant,

C'est avec un grand honneur que j'ai l'opportunité de vous faire cette courte allocution et de vous présenter les particularités de NOIAA Middle East, Europe, The Oceanic & Africa Operations.

Je tiens à souligner que NOIAA LTD, Middle East, Europe, The Oceanic & Africa Operations propose plus de modules de formation tels que (HLO, Helideck, VHF, etc.) que tout autre fournisseur d'actions en Afrique et au Moyen-Orient. N'hésitez pas à contacter le Service en charge de la formation pour tout éclaircissement si vous avez besoin d'informations sur une formation en particulier.

NOIAA LTD, Middle East, Europe, Oceanic & Africa Operations, a mis l'accent sur la qualité, la santé, la sécurité et l'environnement, en s'assurant toujours d'offrir des formations de la plus haute qualité. Veuillez contacter notre Division Ventes & Marketing située au 234 Rue de l'Union Française Bali-Douala sur marketing@noiaa.com pour toute demande de formation et montage financier.

Alors que 2023 a été une année de nouveaux défis pour nous, NOIAA Middle East, Europe, Africa & Oceanic ayant des instructeurs qualifiés basés en permanence sur notre bureau des opérations MEA s'est avérée prudente compte tenu des restrictions de voyage actuelles auxquelles le monde est confronté.

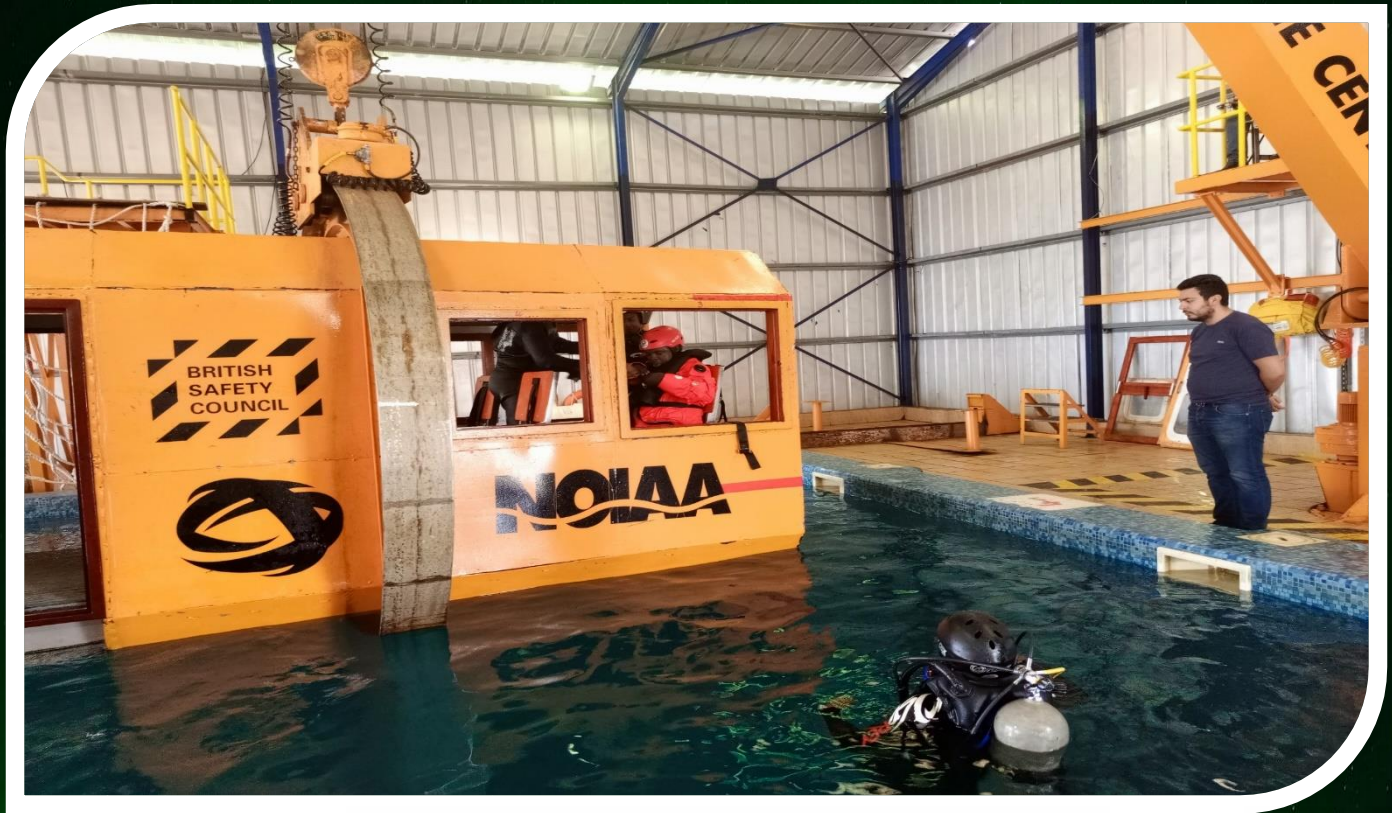

Je voudrais également vous rappeler que NOIAA a investi massivement pendant cette période de COVID-19 dans ses équipements de formation à la sécurité en rénovant et en introduisant de nouveaux équipements sophistiqués dans ses centres de formation pour effectuer toutes sortes de formations à la sécurité maritime on/offshore.

De plus, contrairement à la plupart des entreprises opérant dans notre secteur, nous nous présentons comme les seuls à proposer des programmes accrédités avec une équipe permanente d'Évaluateurs/Vérificateurs internationalement reconnus supervisant chaque formation. Toujours avec une certaine crédibilité, les certificats des stagiaires peuvent désormais être vérifiés en ligne.

Je terminerai en vous souhaitant à tous une **BONNE ANNÉE 2024.!**

Message From President & Chief Executive

HIS THOUGHTS

Our experience in preparing trainees for emergency situations on and offshore is astounding. We ensure that working safely becomes a real pleasure for all employees throughout Africa.

HIS VISION

My passion for Health and Safety was derived from my childhood experiences. As a child, I witnessed how people who were not born lame became lame, others who could hear and see became deaf and blind as a result of work related accidents. Many of these victims lost their jobs while fighting to serve the nation. These motivated me to start thinking how work related accidents within the local community I was growing up in could be eliminated. That is how my vision for safety was born. I grew up with this vision and it has become clearer as I have grown up. Today, my vision is to make Africa as safe as Europe and the United State of America and also to make the continent a place where everyone will go to work, carry out his/her activities and go back home safely to celebrate life with their families.

About Us

NOIAA LTD, Middle East, Europe, The Oceanic & Africa Operations On/Offshore Maritime Safety Training and Accommodation Centre is a subsidiary of NOIAA Corporation, a company registered in the US with head office at 2425 West Loop South (Suite 100) Houston, Texas 77027 USA.

Our On/offshore Maritime Safety Training & Accommodation Centre is located in the beautiful West Coast of Cape Limboh, Victoria (Limbe), Southwest Region of Cameroon.

We provide a range of accredited safety trainings to cater for both Onshore and Offshore companies in a variety of industries. Our facility is modern and equipped with the latest model safety equipment

NOIAA is proud to be the only OPITO approved training centre in Cameroon working towards a combined goal to achieve globally acceptable guidelines which ensures safety in the oil and gas industry.

We have 25+ years of experience to give you a better result.

Regulation

OPITO (Offshore Petroleum Industry Training Organisation)

OPITO accreditation is the most recognised worldwide safety standard within the oil and gas industry. NOIAA On/offshore Maritime Safety Training and Accommodation Centre is currently the only modern OPITO Approved Training Centre in Cameroon and in the Central Africa Region. NOIAA also is among the eight OPITO approved Centres in the whole of Africa. Our safety training programmes are of the highest standards and delivered by the best qualified Instructors in the industry.

Regulation

WAHA (Working at Height Association & Confined Space)

WAHA accreditation is the most recognised worldwide safety standard within the working at height Industry. NOIAA On/offshore Maritime Safety Training and Accommodation Centre is currently the only modern WAHA Approved Training Centre in Cameroon and in the whole of Africa. Our safety training programmes are of the highest standards and delivered by the best qualified Instructors in the industry.

BOSIET

The aim of the BOSIET is to introduce delegates to the specific safety issues and regimes relevant to offshore installations, and to equip them with the basic emergency response knowledge and skills for travelling to and from offshore installations by helicopter.

- ❑ Identify the generic hazards which are specific to offshore oil and gas installations, potential risks associated with those hazards, and how controls are put in place to eliminate or reduce risks
- ❑ Identify key offshore related safety regulations and explain the basic safety management concepts
- ❑ Demonstrate sea survival and first aid techniques
- ❑ Demonstrate that they can effectively use basic firefighting equipment, and practice self-rescue techniques in low visibility situations, to include smoke filled areas.
- ❑ Demonstrate, in a simulated environment, that they can use the safety equipment, and follow procedures in preparing for, and during helicopter emergencies – with particular focus on escaping from a helicopter following ditching

OFFSHORE ACCREDITATIONS - OPITO

16th January 2023

NOIAA Ltd.
Cape Limboh, (Victoria) Limbe II
South West Region
Cameroon

Dear Chris Yok,

OPITO Approval

I am delighted to announce that, effective **13th January 2023**, **NOIAA Ltd.** is now an OPITO Approved Centre. I can confirm that the approval(s) granted are for:

- **Basic Offshore Safety Induction and Emergency Training (BOSIET) with Emergency Breathing System (EBS) (5700)**
- **Further Offshore Emergency Training (FOET) with Emergency Breathing System (EBS) (5858)**
- **Helicopter Underwater Escape Training (HUET) with Emergency Breathing System (6095)**

On behalf of OPITO, I would like to congratulate NOIAA Ltd. on obtaining this Approval. This Approval reflects the dedication and excellent efforts of your team.

We look forward to working with NOIAA Ltd. to support further Approvals.

Congratulations on your achievement of OPITO Approved status. Please do not hesitate to get in touch with our team for any further support or guidance that you may require.

Yours sincerely,

Barry McLoughlin
Head of Quality Assurance

Working together to develop a safe and skilled energy workforce

ACCREDITATION OF THE MINISTRY OF MINES, INDUSTRY AND TECHNOLOGICAL DEVELOPMENT

pression de vapeur d'eau délivré le 19 août 2019 à la société «O'CERY PLC» (BP : 414 Limbé, Tél : 233 33 20 62 / 233 33 20 56), située au lieu-dit «cap limboh» à Limbé, dans l'Arrondissement de Limbé 2^{ème}, Département du Fako, Région du Sud-Ouest, est renouvelé pour une durée de trois (03) ans renouvelable.

- (2) Les activités liées au présent arrêté sont placées sous la surveillance de l'Administration en charge des appareils à pression de gaz et à pression de vapeur d'eau.

Article 2.-DOMAINE D'APPLICATION

- (1) Au sens du présent arrêté, les termes contrôles, expertises et vérifications réglementaires s'entendent comme toute opération de contrôle d'un appareil consistant aux vérifications et essais suivants :
- visite interne et externe ;
 - contrôle de la qualité des soudures ;
 - contrôle de la qualité du métal ;
 - épreuve hydraulique de résistance ;
 - épreuve d'étanchéité hydraulique ;
 - contrôle du volume, de la géométrie, des dispositifs de sûreté et de mesure et d'une manière générale, le contrôle de conformité aux normes.
- (2) La visite interne et externe comprend :
- la vérification des assemblages par soudage des différents éléments ;
 - le contrôle de la qualité du revêtement ;
 - la surveillance des actions corrosives internes et externes.
- (3) Le contrôle de la qualité des soudures consiste à procéder aux essais de traction, de pliage, d'évasement et aux essais non destructifs.
- (4) Le contrôle de la qualité du métal consiste à déterminer sa composition chimique, sa structure métallographique ainsi que ses propriétés mécaniques notamment l'allongement, la résistance à la traction et la limite d'élasticité.
- (5) L'épreuve hydraulique de résistance est le maintien dans l'appareil d'une pression dite épreuve de résistance.
- (6) L'épreuve d'étanchéité hydraulique est la mise de l'appareil sous une pression au moins égale à la pression maximale de service et au plus égale à la pression de l'épreuve de résistance.
- (7) Le contrôle des dispositifs de sécurité et de mesure consiste à vérifier le bon fonctionnement des soupapes et des appareils de mesure et d'enregistrement de la pression effective et de la température.
- (8) La société «O'CERY PLC» (BP : 414 Limbé, Tél : 233 33 20 62 / 233 33 20 56), ne peut effectuer d'autres prestations que celles figurant aux alinéas (1) à (7) ci-dessus.
- (9) En cas de modification de l'une quelconque des informations contenues dans la demande d'agrément, déclaration en est immédiatement faite au Ministre chargé des appareils à pression.

ACCREDITATION OF THE MINISTRY OF MINES, INDUSTRY AND TECHNOLOGICAL DEVELOPMENT

Article 3. - VALIDITE

- (1) Le présent agrément est valable à compter de sa date de signature pour une durée de trois (03) ans renouvelable.
- (2) La demande de renouvellement d'agrément est présentée sous la même forme que la demande initiale au Ministre chargé des appareils à pression quatre (04) mois avant la date d'expiration de l'agrément en cours.
- (3) L'agrément est strictement individuel, incessible, non transférable et ne peut être loué.

Article 4.- DROIT DE VISITE OU D'EPREUVE

- (1) Les frais de visite ou d'épreuve sont liquidés conformément aux dispositions de la loi n° 98/020 du 24 décembre 1998 régissant les appareils à pression.
- (2) Les sommes dues recouvrées par le titulaire du présent agrément sont reversées immédiatement à la caisse de l'Agent Intermédiaire des Recettes de l'administration chargée des appareils à pression territorialement compétent à l'exclusion des frais de transport.

Article 5.- PRESCRIPTIONS TECHNIQUES

Pour les activités liées au présent agrément, le titulaire est tenu de respecter les conditions définies ci-après :

- saisir la Délégation Régionale du Ministère en charge des appareils à pression avant l'exécution de toute expertise relative aux appareils à pression ;
- faire parvenir au Ministre chargé des appareils à pression, avant le 31 Décembre de chaque année, le rapport d'activités de l'année budgétaire écoulée suivant le modèle-type présenté en Annexe du présent arrêté ;
- assurer l'apposition du poinçon officiel sur les appareils ayant subi avec succès les épreuves réglementaires ;
- dresser, après chaque opération, un rapport ou procès-verbal et le cas échéant, un certificat de visite ou d'épreuve qui sera validé par la signature de l'inspecteur assermenté de l'administration chargée des appareils à pression ayant supervisé l'expertise, tout manquement à cette obligation entraînant la nullité de l'opération ;
- se prêter aux actions de surveillance qui pourraient être réalisées par l'administration chargée des appareils à pression ou par une personne mandatée par ladite administration, au moins deux (02) fois par an et en tant que de besoin, pour vérifier le respect des prescriptions administratives et techniques du présent arrêté ;
- participer aux réunions organisées à l'instigation de l'administration chargée des appareils à pression pour assurer la coordination nationale entre les personnes morales agréées au Cameroun ;
- participer, en tant que de besoin, aux travaux de normalisation nationaux portant sur les appareils à pression ;
- informer les fabricants et les exploitants des appareils à pression, sur leur demande, de l'existence des dispositions réglementaires relatives à la construction, l'exploitation et le contrôle des appareils à pression au Cameroun ;
- faire connaître clairement à l'administration chargée des appareils à pression, aux fabricants et exploitants, le montant des prestations liées aux interventions effectuées dans le cadre du présent arrêté ;
- ne procéder à aucune modification de la liste du personnel technique au cours de la période d'agrément qu'après accord préalable du ministre chargé des appareils à pression, sous réserve des dispositions du Code du Travail ;
- veiller à la prévention de tout accident ou incident au cours des opérations de contrôles, d'expertises et de vérifications réglementaires des appareils à pression de gaz et à pression de vapeur d'eau ;

ACCREDITATION OF THE MINISTRY OF MINES, INDUSTRY AND TECHNOLOGICAL DEVELOPMENT

- utiliser, dans le cadre des opérations citées ci-dessus, des instruments de mesure conformes à la réglementation en vigueur en matière de métrologie.

Article 6. - OBLIGATIONS

Conformément à l'article 9 du décret n° 99/819/PM du 09 novembre 1999 susvisé, les administrateurs, le personnel de direction et tout le personnel salarié de la société «O'CERY PLC» (BP : 414 Limbé, Tél : 233 33 20 62 / 233 33 20 56), dont les activités sont relatives au présent agrément sont tenus au secret professionnel et à la probité. A cet égard, il leur est notamment interdit :

- de faire le commerce des appareils à pression de gaz et à pression de vapeur d'eau;
- d'avoir un intérêt quelconque dans les entreprises qui commercialisent, fabriquent ou utilisent des appareils à pression de gaz et à pression de vapeur d'eau ;
- de se constituer conseil des personnes physiques ou morales pour l'acquisition des appareils à pression de gaz et à pression de vapeur d'eau.

Article 7. - SANCTIONS

- (1) En cas d'inobservation des dispositions du présent arrêté le titulaire du présent agrément s'expose aux sanctions prévues à l'article 18 du décret n° 99/819/PM du 09 novembre 1999 visé ci-dessus.
- (2) Les infractions aux dispositions du présent arrêté sont constatées par les officiers de police judiciaire, les ingénieurs et agents assermentés du ministère chargé des appareils à pression, conformément à la législation et à la réglementation en vigueur.

Article 8. - NOTIFICATION ET PUBLICATION

- (1) Le présent arrêté sera notifié à la société «O'CERY PLC» (BP : 414 Limbé, Tél : 233 33 20 62 / 233 33 20 56).
- (2) Le Directeur de l'Industrie est chargé de l'application des dispositions du présent arrêté qui sera enregistré puis publié en français et en anglais partout où besoin sera./-

NOIAA LTD

Policy implementing OPITO standards

TRAINING POLICY FOR OPITO APPROVED COURSES:

The quality objectives and policies of the NOIAA LTD shall continue to apply to all OPITO approved courses.

NOIAA LTD aims to provide the best learning environment using a blend of classroom based and practical training that instills confidence, knowledge and skills required for safe and efficient working in the off-shore industry.

This policy is to be displayed in all offices, classrooms and Notebook of NOIAA LTD.

IT IS THE POLICY OF NOIAA LTD FOR OPITO APPROVED COURSES:

- To encourage continuous improvement in the quality of all teaching and learning programs, thereby making specialized offshore related learning an enjoyable activity and through this, increasing learner retention and the achievement of individual learning.

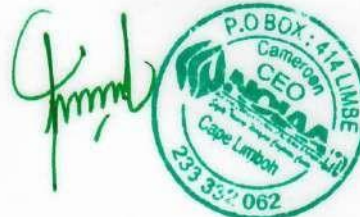

-To develop and sustain a diverse range of OPITO approved programs which provide the best opportunities for progression and which provide learners with experiences and wherever appropriate, with qualifications suited to their usefulness

-To ensure rigorous, standardized and consistent assessment procedures, which meet the OPITO standards according to the guidelines and Standards laid out by that organization.

NOIAA LTD SHALL ENSURE ALL PARTICIPANTS ATTENDING AN OPITO APPROVED COURSE WILL BE PROVIDED THE FOLLOWING CUSTOMER SERVICES:

- To ensure that delegate safety and well-being remains the highest priority at all times.
- To ensure all training is conducted in a safe and controlled environment by qualified instructors.
- To ensure all personnel receiving OPITO training, are aware that NOIAA LTD have the responsibility and right to intervene and stop training, when it is safe to do so, should they observe a delegate in distress or their health and safety is at risk.
- To ensure all delegates understand their rights when receiving OPITO training, including the right to demand to stop training if they are in distress or their health and safety is at risk.
- To be treated in a courteous manner at all times
- To ensure delegate competence is assessed by trained and qualified Assessors (where applicable)
- To ensure training events are limited to a maximum number of delegates as defined within the OPITO standards

NOIAA LTD
Health and Safety Policy

National Offshore Institute of Australia and America is committed to working in accordance with the provisions of the safety, Health and Welfare local regulations and other associated legislation and the requirements of this Safety Statement. It is committed to fulfilling its statutory obligations to manage and co-ordinate workplace safety and health and ensuring, so as far as reasonably practicable, that:

- The safety statement is maintained and updated, risk assessments are carried out and reviewed as required and brought to the attention of all staff members at least annually.
- A safe place of work is provided, which is adequately designed and maintained.
- A safe means of access and egress are provided
- NOIAA has appropriate plans and procedures which are in place to deal with emergencies and imminent dangers.

National Offshore Institute of Australia and America in respect of all persons attending an OPITO approved course commit to the following:

- To ensure that learner safety and well-being remains the highest priority at all times.
- To ensure all training is conducted in a safe and controlled environment by qualified instructors.
- To ensure all learners receiving OPITO training, are aware that NOIAA have the responsibility and right to intervene and stop training, when it is safe to do so, should they observe a learner in distress or their health and safety is at risk.
- To ensure all learners understand their rights when receiving OPITO training, including the right to demand to stop training if they are in distress or their health and safety is at risk.
- To ensure all learners have the right to report any near-miss, accident and incident immediately.
- To protect environment while delivering training, conducting assessment and performing maintenance activities.

National Offshore Institute of Australia and America is committed to the following:

- To identify high-equipment covered by OPITO Maintenance Policy through to defining appropriate maintenance and inspection activities and their frequencies.
- To develop and perform risk assessment to support Risk Based Maintenance. This is performed as a Failure Mode and Effect Analysis
- To ensure that all maintenance activities are conducted in a safe manner and by qualified persons.
- To ensure that all maintenance operations are recorded
