(ish) Training and Skills

London - UK, May 30th 2018

Subject: Partnership

Dear Shareholders.

I am writing just to draw your attention to the fact that NOIAA LTD, Africa operations whose head office is located at Cape Limboh - P.O. Box 414, Limbe II, Republic of Cameroon is a subsidiary to IOSH Training and Skills

IOSH Training and Skills, which is well equipped with all the safety training materials is approved and accredited to carry out Offshore and Maritime trainings under the STCW and IMO safety regulation body. To that effect, NOIAA LTD as a subsidiary to IOSH Training and Skills is automatically approved and accredited to carry out Onshore and Maritime safety trainings.

NOIAA LTD, Africa Operations has all the facilities to provide Onshore and Maritime safety trainings.

I would have no hesitation in stating that NOIAA LTD, Africa operations is already doing On/offshore, Maritime Safety Training in accordance to OPITO, STCW and IMO standard and has all the ability to deliver consistent training to the required level and in achieving the goals of human safety.

Regards

Dear Stakeholder,

It is with great honor that I have this opportunity to make this short address to you and introduce you the particularities of NOIAA LTD, Middle East & Africa Operations.

I would like to point out that NOIAA LTD, MEA Operations has more training modules like (HLO, Helideck, VHF etc..) than any other training provider in Africa and the Middle East. Do not hesitate to contact our Training Department for any clarification if you need information on any particular training.

NOIAA LTD, MEA Operations, has maintained a key focus on quality, health, safety and environment as such will always make sure to offer trainings of the highest quality. Please contact our Sales & Marketing Division situated at 234 Rue De La Union Française Bali-Douala on marketing@noiaa.com for any request on trainings and financial arrangement.

While 2021, has been a year of new challenges for us, NOIAA LTD, MEA Operations strategy having qualified instructors permanently based on our MEA Operations office have proved prudent given the current travel restrictions face by the world.

I would also like to remind you that NOIAA has invested heavily during this period of COVID-19; on its safety training equipment by renovating and introducing new sophisticated equipment in its Training Centres to carry out all sorts of On/offshore Maritime Safety Trainings.

Furthermore, unlike most of the companies operating in our sector, we present ourselves as the only to offer accredited programs with a permanent team of internationally recognized Assessors/Verifiers overseeing each training. Also with some credibility, trainee's certificates can be verified online from now onwards.

I will end by wishing you all Merry Christmas and a Prosperous NEW YEAR 2022.

THANK YOU.
